**Our Dead at Andersonville—General Forrest not Allowed to Return Home—Schools for Freedmen Established.**  
New York, Aug. 15.—The Herald's Washington special has the following: Capt. J. M. Moore telegraphs from Andersonville that he will be through with the work of reinterring the remains of our soldiers who died at that place during the war by the latter part of this week. Fourteen thousand head boards are to be set up.  
As a slight indication of the esteem in which many rebel General officers are now held by the follow-citizens, whom they so long so cruelly de-luded, it may interest the public to know that General Forrest cannot return to his plantation and old home on the Mississippi river with safety to himself, unless protected by Federal bayonets.  
Schools for freedmen are established at Paducah and Columbus, Ky., Memphis and President's Island, Tenn., Little Rock, Ark., and Helena, Ark., Vicksburg, Davis Bend and Natchez, Miss., camps near the Mississippi, Duval's Bluff, Ark., and three remote camps in Arkansas. Of the cities above named, Memphis stands out in point of attendance at its schools and the revenue derived therefrom, which are represented by ten in number, and of aggregate one thousand nine hundred and eighty-eight, during the month of May of \$810. The total number of schools in the district is set down at fifty-nine, number of teachers employed 220, and number of scholars enrolled 700, who during the month of May were paid a tuition aggregating one thousand two hundred and sixty-six dollars.

**An Election to be held in North Carolina—The Trial of Wertz—Pardons to be Suspended for a time.**  
New York, Aug. 15.—Governor Holden, of North Carolina, has issued a second proclamation, dated at Raleigh, on the 14th inst., appointing Thursday, the 21st of September, for an election to be held throughout the State to choose one hundred and twenty delegates to a convention which is to meet at Raleigh on Monday, 2d of October. The Times' special says that Wertz, the Andersonville prison-keeper, is to be put on trial to-day. The charges against him are, willful maltreatment of prisoners, depriving them of their shelter and necessary food, stealing their blankets and camp equipments, ordering rebel soldiers to kill them without cause, and causing them to be hunted and killed by bloodhounds.  
Much surprise has been occasioned here by the report that Hon. Alfred E. of New York, would appear as a witness for the defense in the Wertz trial. Such is now ascertained to be the fact.  
The Times' Washington special dispatch says:  
It is understood that the President has determined to suspend the bestowal of pardon, for a short time. An arrangement will probably be made to transfer the labor from the Executive to some one of his subordinates, the application of which would be made in the past month proved of great value than any other business brought to his notice.

**Teachers' Examination.**  
AN EXAMINATION OF CANDIDATES for positions as Teachers in the Public Schools of the District of Wheeling will be held in the Hall of the House of Delegates in the city of Wheeling, on Friday, August 19th, commencing at 9 o'clock A. M. All persons who hope to obtain situations as Teachers in any of the Schools of the District, should be present for Examination at the time and place named, as no other examination will take place before the opening of the Schools in September, and no Teacher can be employed, who shall not previously have obtained a certificate of qualification from the Examining Board.

**Excitement in Financial Circles.**  
New York, Aug. 15.—There is a great excitement in money circles this morning. A number of features are reported, among them Charles Graham and Co., and Ketchum and Son are suspended. It is said Ketchum and Son have over-issued gold checks to the amount of \$1,800,000, and have left for parts unknown.

**Failed to Subjugate the Dominicans.**  
New York, Aug. 15.—The Washington Chronicle says, the State Department has been informed that Spain, having failed in her efforts to subjugate the Dominicans, now demand an acknowledgment from them that she cannot take possession of the country at the request of the people, so humiliating an acknowledgment, and her coast ports have been declared blockaded.

**The Failure of Morris Ketchum and Company.**  
New York, Aug. 15.—The Evening Post says concerning the failure of Morris, Ketchum and Company:  
The failure of Morris, Ketchum and Company has produced a more profound impression upon the public mind, which has occurred in some centers, than it is by the flight of one of the junior members of the firm, E. B. Ketchum, who has abstracted securities to the amount of \$1,800,000, and has left out of the bank as much as possible of the available funds of the firm. On the discovery of these facts, Mr. Morris Ketchum, this morning, ordered payment to be stopped, and in a few days he will be ready to submit to the creditors a proposition for liquidation. Meanwhile all remittances are deposited in the bank to the credit of the remitters. The large capital of the firm, and the wealth of its senior partner, renders it probable that the loss to the creditors will not be so heavy as was at first reported. It is as yet presumptuous to attempt to state the amount of the liquidation, but it is variously estimated at from two to four millions of dollars.  
The Washington correspondent of the Post, noticing the statement in the Chicago Times that Jeff. Davis is to be tried by a court, says that such a trial is an early trial is without foundation. It is true that the Government has decided to try Davis in a civil court, but the date of the trial has not been fixed. It is also probable that he will be tried at Richmond.

**New York, August 15.—Edward Ketchum, who has absconded, is 25 years of age, has been married two or three years, and has one child. Before departing he left a letter for his father, in which he admitted the crime, and asked his father to provide for his wife and child, saying he had provided for himself.**  
It is reported that he abstracted bonds from the safe of the firm, but to what extent is not now known. The 4th National Bank, it is now stated, is involved by his transactions, \$255,000, which he negotiated some of the forged certificates.  
The last seen of Ketchum was in a trunk store on Broadway, where he had some fifteen packages of money, brought from a glance to be as much as \$6,000, where he purchased a traveling bag.

**A card from the President of the 4th National Bank says that it is perfectly sound, the earnings for the last six months being \$1,800,000, and the amount of forged certificates held.**  
New York, Aug. 15.—Further developments of the forgery of gold certificates have been made to-day. It appears that the 4th National Bank, of the firm of Morris, Ketchum and Son, has been in charge of the business of Mr. Charles Graham, broker on Exchange place, during the illness of Mr. Graham. Upon his return to his office, he discovered the forgery, and is missing from his check book. This fact has led to the suspicion that Mr. Ketchum is concerned in the forgery of certain fraudulent checks that have been in circulation for some time. At all events, he is absent, and said that Mr. Graham has been victimized to the extent of \$255,000.

**This morning the firm of Ketchum, Son & Co. suspended payment, and Graham & Co. have also announced their inability to meet their engagements. Mr. Graham stated at the board that he hoped to be able to settle all his stock contracts at to-day's prices.**  
The committee on explanation of the suspension of Morris, Ketchum and Co., is that Ketchum's son had abstracted bonds and other securities from the vaults of the banking house, to the amount of \$1,800,000.

**Another statement is that young Ketchum forged gold certificates to the amount of two and a half millions of dollars, which had been passed into the circulation, which will be the principal sufferers.**  
Sifting the various rumors, it seems established that young Ketchum is guilty of robberies to the amount of not less than two millions of dollars. It had for some time been the price of his father in the arrangement of the business, and possessed the full confidence of all who knew him. He left his home yesterday and has not been seen since. His creditors did not suspect their losses yesterday, so ardently were his operations conducted.  
Jenkins, the Phoenix Bank robber waived an examination this morning and was fully committed.

**The Coming State Convention in North Carolina.**  
RALEIGH, Aug. 8.—J. S. Pennington, editor of the Raleigh Progress, who is standing up manfully for the Union, and who knows more of the recent designs of the rebel leaders than any other man in North Carolina, has been making important disclosures of their evil intentions, is a candidate for a seat in the coming State Convention. A man of this stamp has the same right of being elected Governor of Massachusetts.  
Milk and water men and rebel sympathizers, the only classes the ruling aristocracy will trust.

**In giving the true cause of the approaching danger, the Raleigh Progress July 27, says: There is in Tennessee and North Carolina, a growing danger, which, if not checked, will be a disaster to the Union. The danger is, that the rebel leaders, who are now in the hands of the Government, are making important disclosures of their evil intentions, is a candidate for a seat in the coming State Convention. A man of this stamp has the same right of being elected Governor of Massachusetts.**

**Another Railroad Disaster.**  
NEW HAVEN, Aug. 15.—A frightful railroad disaster occurred this morning on the Housatonic River railroad. The passenger train, going up the river, was derailed by a landslide, and several miles above Bridgeport and the 10:20 train following, found it on the track and hatched on and backed to the bridge. The train was derailed, and the engine was out for trial on the track and came up, about three miles above Bridgeport, ran into the rear of the passenger train. The locomotive struck the hind end and splintered it in two, passing directly through the boiler, and burst just as it reached the second car from the rear, making awful havoc. Seven persons were killed outright, and eleven were terribly mangled and mangled.
